

DIAMOND TANKS

1000 litres Bunded

Length 1900mm

Width 640mm

Height 1465mm

1650 litres Bunded

Length 2010mm

Width 1350mm

Height 1430mm

2700 litres Bunded

Length 2395mm

Width 1720mm

Height 1650mm

Features: 2" BSP fill point | 4" lockable inspection point | Lockable manhole access | Contents dipstick | 1" BSP (F) Outlet | 32mm drilled and plugged gauge fitting point | Optional extra: Tankpack

Oil Tank FAQ's

What is a Bunded Oil Tank?

A 'bunded' oil tank simply consists of a tank within a tank. Oil is stored in the inner tank and the outer tank acts as a failsafe so that in the event of a spillage, excess oil will collect in the outer tank - thus averting a pollution incident and a costly environmental clean-up operation!

Bunded oil tanks have been proven to significantly reduce the risk of pollution at oil storage installations. They are a requirement at most commercial, industrial, institutional and commercial premises; all installations in the Channel Islands; and, at many domestic installations in the United Kingdom and Republic of Ireland.

What are the Regulations Surrounding Oil Storage?

- The Control of Pollution (Oil Storage) (England) Regulations 2001
- The Control of Pollution (Silage, Slurry and Agricultural Fuel Oil) Regulations 1991
- The Control of Pollution (Silage, Slurry and Agricultural Fuel Oil) Regulations (Northern Ireland) 2003
- The Water Environment (Oil Storage) (Scotland) Regulations 2006
- Environmental Alliance Pollution Prevention Guidelines PPG 2
- Relevant oil storage tank installation requirements contained within Building Regulations throughout the UK and Republic of Ireland.

Does the Diamond Tank Comply With These Regulations?

Yes. The Diamond Tank meets all relevant regulatory requirements and as it is a bunded tank, it is the environmentally preferred option, versus a single skin oil tank.

Who Can I Contact For More Advice?

You can either contact Diamond Tanks' head office on 028 9261 1077 or you can visit www.oftec.org for information from oil industry experts OFTEC.
